### **Delta Police on the Hunt For Suspect Captured on Bait Car Video – Do You Recognize Him?**

The Delta Police, partners with IMPACT, have utilized the Bait car program which has lead to several arrests over the course of the past several months.

This is an effective tool that we have available and the results speak for themselves.

The Integrated Municipal Provincial Auto Crime Team (IMPACT) operates the largest Bait Car Program in the world. Several IMPACT Bait Cars were planted in the North Delta area to help identify suspects who were breaking into vehicles. Enticing property was planted in the Bait Cars and it was marked with the latest MicroDotDNA technology which consists of tiny dots that positively identify the property as belonging to the police. “This new technology, along with the live audio and video evidence from the bait car, will go a long ways to identify and convict anyone who thinks that cars in Delta are easy pickings” said Sergeant Gord Elias from IMPACT.

Although Delta Police have made arrests as a direct result of the use and deployment of bait cars there is an individual that the Delta Police are looking for.

A suspect not yet identified has been captured in two separate incidents:

- April 19 2010 and March 18 2010 both incidents occurred in the same general area of 11200 blk 72 A Ave. The suspect gained entry to the vehicle and stole items from within it in both cases.

If you know the individual in this photo and have information on his whereabouts please contact the Delta Police at 604 946 4411 quote file # 10-9782 Or Crime Stoppers 1800 222 8477

To view additional photos captured of this suspect please visit the Delta Police website:
